## RAIN

Ilan El

(61 3) 9529 1735, 0403 100 398

ie2design@gmail.com

'Rain' combines multiple sources of illumination with an innovative, ambient diffusion suitable for residential and contract use. Through utilisation of aluminium, 'Rain' invokes primary forms with the use of light and shadow, design and interaction. Integral to the design is the use of special lamp holders that supply electricity and also function as the strings that hold the tubes.

## RUSTIE DESK

Keith Melbourne

(61 8) 9443 5484, 0413 707 007

kmelbourne@westnet.com.au

The 'Rustie' desk is a visually dramatic incarnation of the office desk, designed to exploit the structural properties of steel and the extraordinary capabilities of CNC laser cutting. It was inspired by elements of the Australian environment, such as the clarity of light and resulting shadows, rich colours, utilitarianism, rugged environment and contrasting beauty.

## SHELL CHAIR

Gary Galego

0401 644 660

mail@garygalego.com, garygalego.com

The 'Shell' chair is shaped for a high level of comfort and visual splendour. Inspired by the image of an open clam, the 'Shell' chair involved shaping a single piece of leather over a compound (3D) shaped seat and back plane. After careful consideration, the elegant, undulating and sinuous lines of the 'Shell' chair evolved. The idea of having the opposing side to the seat plane covered in contrasting material made sense in an attempt to achieve balance and harmony in this design.

## SNUG

Alvin Tjitrowirjo

(62) 21 707 051 10, alvin.tjitrowirjo@gmail.com

'Snug' is the ultimate lounging chair, designed to provide freedom to its users and accommodate different seating positions. Besides the comfortable leather upholstery, 'Snug' comes with a polished aluminium stopper that, when removed, transforms it into a fabulous rocking chair, simple yet brilliant. 'Snug' is suitable for adults as well as kids and has a retro-modern feel.

## STOOL 60

Babak Aryaie

(61 2) 9987 4444, 0418 418 415

aryainteriors@bigpond.com

'Stool 60' is a versatile and stylish piece of furniture that can be used in almost any environment. It can be stacked up and easily packed away to maintain space. The smart geometry of the design allows combinations to be arranged singly or in various ways to suit your needs. The product presents a visual joy, even while waiting to be used.
